We will go through this before the end of the week. My initial recommendation would be to include the items BUT in a shorter, update focused form, without the antagonistic, accusatory language. I would be glad to work on language if there is agreement with that approach.

 > 2) Discussion of Terminal Use Regulations applicability to charter operators selling single seats such as JetSmarter.

- > 3) Discussion of renegotiation of Ross West lease & reversal of county's position on Ross West weight limitation. On April 2, 2018, the county instructed Ross West to cease & desist from servicing overweight aircraft in violation of their lease. However, since then, the county has provided a blanket exemption for JetSmarter aircraft. What vetting and decision making process was undertaken prior to reversing the county's position?
- > 4) Discussion of progress & timeline for master plan supplement. The county represented to Million Air on October 17, 2018 that the new master plan would be completed by July 2019. How does the county intend to achieve this timeline while providing for substantive public input and a full consideration of policy options?
- > 5) Discussion of lack of county response to July 18, 2018 AAB resolution requesting document production as of the 15th of each month.
- > 6) Discussion of continued lack of responsiveness to community noise complaints and implementation progress on new noise complaint system. On July 2, CE Latimer specified a November 1 deadline for a revised noise complaint system. What is the progress on this?
